COMPUTRONIX IT SERVICE CONTRACTS AND THE BENEFITS

Computronix Technologies® has a long term commitment to enterprises and corporations in empowering their businesses of all sizes with quality IT services and IT products that have been assessed by our clients, project owners, project leaders, end-users, IT leaders, business leaders, change leaders, thought leaders, and stakeholders to be cost-effective, reliable, secured, efficient, sustainable, and comprising of the highest quality standards. We will continue to support businesses, companies or organisations, and government administrations with efficient and effective IT services delivery under our very flexible IT Service Contracts, IT Support Services, Managed IT services or Business IT support services in such a manner that accords our clients the freedom and flexibility they desire under mutually benefitting contracts or no contracts at all between the “**Client**” and the “**IT Services Provider**”. The outstanding fact about the IT Service Contracts for IT Support Services which Computronix Technologies® provides to businesses, companies, organisations and government administration is that we shall **NEVER** bill our Clients beyond the normal rates obtainable in any given marketplace within any state, geographic region or country where the IT tasks, IT activities, IT work packages or IT projects may be implemented as the project host communities or primary location of any such IT project. We will only charge businesses for the IT products and IT services that are of paramount importance to the growth of their businesses, companies or organisations, and will NEVER send billings for IT services or products which businesses does NOT need for their operations. Here at Computronix Technologies®, it is important for everyone and all businesses to know that we have total hands-on experienced, well qualified, academic certificated, and IT industry certified **IT professionals, Computer and Network Engineers, IT Technologists, IT Technicians, IT Technical Support Engineers, Satellite and Telecom Technologists, Web Application Developers, Computer Repair and Maintenance Technicians, Web Designers and Developers, Software Engineers, Database Developers, Programmers and Coders, Enterprise Resource Planning (ERP) Solution Providers, IT Security Professionals, and much more** that works as one team with great mindset in teamwork to support IT facilities and IT assets of businesses, companies or organisations, and government administration in Nigeria and around the world. The IT support services we offer either on NO-contract or ON-contract basis as specified under Computronix IT

Email: post@computronixsupport.com Web: <https://computronixsupport.com>

Service Contracts, Managed IT Support Services or Business IT Support Services includes **computer repairs and maintenance for desktops, laptops, servers, Apple Mac, and tablets, web design and development, web hosting and domain name registration, web application development, web portal development, internet marketing, enterprise customisable webinar platforms, search engine optimisation (SEO), social media development, mobile app development, software development, enterprise resource planning solutions, database development, internet security, IP-based CCTV systems, computer networking and network support, broadband internet connectivity, IT consulting, procurement and supply of IT equipment, IT products and accessories; including IT services.**

THE TYPES OF COMPUTRONIX IT SERVICE CONTRACTS.

IT Service Contract is an IT service agreement between the **“Client”** and the **“IT Services Provider”**. The **“Client”** in this case, could be defined as an individual, a business, a company, an organisation or government while the **IT Services Provider** or **IT Contractor** is defined as **Computronix Technologies®**. The aim of such **IT Service Contract** is to provide unlimited **IT Technical Support, IT Consulting, IT Procurement, Web Services, and other related IT services** for a mutually agreed monthly fee package. **Computronix Technologies®** is different from other **IT Services Providers** due to the unlimited **IT**

“COMPUTRONIX TECHNOLOGIES® IS THE BEST IT SERVICES PROVIDER FOR IT SUPPORT SERVICES OR BUSINESS IT SUPPORT”.

“EXPLORE OUR IT SERVICE CONTRACTS NOW IN ORDER TO GROW YOUR BUSINESS PROFIT MARGIN”.

Technical Support, IT Consulting, Web Services and Procurement of IT Products and IT Services we give to businesses, companies, organisations and government administrations by our IT professionals with academic qualifications and IT industry-led certifications added with nearly three decades of total hands-on experience which have been acquired by our IT professionals and IT Engineers with

Tel: +234-813-961-7210 WhatsApp: +234-813-961-7210

Email: post@computronixsupport.com Web: <https://computronixsupport.com>

capabilities of giving valuable IT advisory services, offering IT technical support, procuring and supplying reliable, secured, and high quality IT products and IT services at an affordable cost for business enterprises which could be Start-Ups businesses, as well as fully established business enterprises to save them money, technical glitches, insecurity, and much more that could arise from using the IT services of any unqualified IT service person or IT vendor out there on the streets. Computronix Technologies® is different from other IT Services Providers because we provide our Clients with **“unlimited”** IT support services under our **Fixed-Priced IT Service Contract** whereas majority of other IT Support Companies or IT Services Provider avails their customers with only **“limited”** IT support services under their own **Fixed-Priced IT Service Contract**. In some other type of IT Service Contracts we provide to Clients, we could be billing our customers for a set amount of support hours we used in resolving IT issues under a **Break and Fix IT Service Contract**, which gets diminished as soon as more of the Client’s IT problems are logged and resolved. However, we could also charge our customers for the **IT project resources** we used in resolving IT issues for them under an

IT Service Contract termed as **Time and Material Cost IT Service** contract. These project resources are **IT work resources, IT material resources** and **IT cost resources**; whereby **work resources** comprises of the **IT people and IT equipment** which we utilises in resolving IT issues while **material resources** comprises of the **cost of IT materials** we used, whereas the **IT cost resources** defines the money spent in procurement of IT services and money paid for IT tasks, IT activities, IT work packages, and IT projects in general to our IT contractors and IT subcontractors by Computronix Technologies®, working fully as the IT Services Provider.

We extend the IT Support Services we utilises in addressing any business, company, organisation or government problems beyond *business IT support, cloud services, managed IT security, Microsoft Office 365, hosted desktop, cloud web hosting, data backup, server support, internet packages, web application development, web portal development, software development, ERP solutions, disaster recovery, remote IT support, Apple Mac Repair, plus all PC fixing and maintenance* by availing all the things any business requires towards the efficient running of any such business IT technical infrastructures, and systems. This

cannot be achieved without our proactive approach in the formulation of a long-term IT strategy aimed towards giving your business, company, organisation or government a customised IT solution in accordance to your business requirements, goals and objectives. We fill the gap in situation where you lack the IT competence in knowing your requirements through our advice and assistance. We offer three types of IT support services, IT service contracts or managed business IT services to customers depending on their requirement and budget under these three contract types which are categorised as **Break and Fix or Block Hours Contract, Time and Material Cost Contract, and Managed IT Services or Fixed Priced Contract**. These three contracts dissect across the contract types we offer to clients for IT support services, IT Service Contracts or Business IT Support Services Contract. Our IT Service Contracts for IT Support Services are being used in solving specific problem(s) an individual or business firm may be undergoing. Furthermore, **Block Hours Contract** is issued to businesses that pay a discounted fee for a specified amount of hours over a stipulated period of time; like one month or one year. It can also be linked to **Break & Fix IT Support**

Services, in which clients are offered IT support whenever clients' IT systems or equipment breaks down and needed to be fixed. In this case, fee is agreed on and paid on delivery of service to troubled clients. In the case of **Time and Material Cost IT Support Services**, clients are expected to pay for any IT equipment and accessories they may require and pay the agreed fee for the amount of time it takes Computronix Technologies® IT Crew to fix the problem. In **Managed IT Services or Fixed Priced Contract**, IT support services are normally given to businesses over a negotiated and agreed fee for a specific requirement covering over a period of time. In this type of IT support, there could be a 24hrs/7days IT support service or a visit by Computronix Technologies® IT Technicians for problems that cannot be solved remotely to ensure that clients' IT facilities are running efficiently for powering their businesses, companies, organisations, and government. This type of IT support is often referred to as Managed IT Services or IT Service Contracts. This type of IT support combines flat-rate unlimited IT support for a monthly fixed fee: Call it Fixed Price Contract. In this case, Computronix Technologies® becomes your business IT department or support customers existing IT

department, whereby we play the role of **Hybrid IT Technical Support** with our quality IT support services and IT products either physically or remotely in order to make such *businesses flourish, attain and sustain growth quickly; allowing them to concentrate on their core business processes and functions for maximum efficiency and output. This takes away pressure and saves time and money for many*

organisations and businesses by controlling costs and reducing labour costs, clients enjoy the services of trained, experienced, qualified and certified IT professionals. Managed IT Services or IT Service Contracts also increases efficiency and competitiveness, fast execution of technology, reduces risks and helps businesses to remain focused on their core business activities.

BENEFITS OF COMPUTRONIX IT SERVICE CONTRACTS, IT SUPPORT CONTRACTS, MANAGED IT SERVICES OR BUSINESS IT SUPPORT SERVICES.

•Guaranteed IT Security with our Highly Skilled and Competent IT Professionals.

It has become very necessary to obtain IT Service Contracts in today's business world where businesses are trying to reduce operational expenses, capital expenditures, Cyber threats, adhere to quality products, utilise highly skilled and quality IT resources, fight against data theft, protect data and IT systems, and much more. It has become pertinent for our customers, project sponsors, project leaders, end-users, business leaders, change leaders, and thought leaders to understand thoroughly the reasons why IT Service Contracts for IT Technical Support Services will remain very beneficial to their businesses, companies, organisations or

government administration. As an IT Services Provider, Computronix Technologies® and its parent company; Systemtronix Solutions Limited®, which is a project management company (PMC) have the competence in aligning your business objectives, problem statements, needs, and effects to the right IT services and IT products to maintain your business competitive advantage in this increasing competitive business world while you remain focused in running your daily business processes and operations, and allowing Computronix Technologies® to take care of all your IT requirements. It is worthy to note that whatever name anyone prefer to call our action; whether it is called **Managed IT Services, Business IT Services, Business IT Support Services or Business IT Support**

Email: post@computronixsupport.com Web: <https://computronixsupport.com>

Contracts; they all mean the same thing as **IT Service Contracts**. There is absolutely no difference amongst them. However, the IT hardware and software repair and maintenance, procurement and supply of IT systems, IT products and IT services can be very tedious, risky, and absolutely expensive if you; as an individual, business, company, organisation or government administration goes out there on the street to fetch any IT service person or IT repair shop to do the IT job. This is because you cannot attest to the qualification, experience, professionalism, goodwill, ethical standard or trustworthiness of any IT street vendor that is offering IT services to you or your enterprise business organisation; especially in today's IT industry where there are many quark and unqualified IT Service Providers, inexperienced and insincere IT vendors, proliferation of fake and substandard IT products, IT equipment, and IT accessories, increasing number of cybercrime threats on software and computing devices like desktop PC, laptops, iPad, tablet PC, Smartphone, iPhones, websites, web and mobile applications, computer networks, databases, business emails, and much more. In view of all these foreseen obstacles and problems, it will make better business sense to obtain IT Service Contracts of any type which

Computronix Technologies® provides to its Clients under the supervision, monitoring, management, and coordination of its parent company named Systemtronix Solutions Limited® collaborating well together for provision of **IT Technical Support, IT Consulting, IT Procurement, and Web Services** as Managed IT Services, Business IT Support Contracts, Business IT Services or Business IT Support Services, which Computronix Technologies® offers under a very flexible terms without any negative and undue commitment on the part of any Client which could be individual, micro, small, medium or large scale enterprises; which we have abbreviated as MSMEs, SMEs, and MNCs businesses. You will have the advantage of using the IT Project resources of Computronix Technologies® with quality IT equipment, IT tools, IT accessories and well qualified IT people with notable IT industry certifications, university degrees, IT apprenticeship qualifications, and over two decades of total hands-on IT experience. Computronix Technologies® may become your IT department in any business enterprise where there are no existing IT department or support any existing IT department or IT Staff in any business, company, organisation or government administration to provide cost-effective

Email: post@computronixsupport.com Web: <https://computronixsupport.com>

and high quality IT Support Services under **Hybrid IT Technical Support** which we have continued to use in empowering businesses towards attaining tremendous growth beyond expectations with high return on investment (ROI) at greatly reduced payback period (PBP) for any IT project we implement for our Clients. Therefore, the IT Service Contracts we offer to Clients normally allows businesses, companies, organisations, and government administration to concentrate on their core business functions, processes, and operations while Computronix Technologies® takes absolute care of the Clients' IT systems, IT infrastructures, plus web and mobile applications at greatly reduced costs with full concentration on complete eradication of IT risks and anticipated IT problems by utilisation of the services of trusted IT professionals and IT Engineers sourced from Computronix Technologies®, and its partners. The decision to acquire the IT Service Contracts of Computronix Technologies® guarantees our Clients the procurement and supply of only very high quality IT products and services that will be of immense importance to their business growth without having the need for any IT parts replacement or reworks on any IT projects or work packages, which are more frequent and common with the disadvantaged decision and action

of any Client in selecting a road side IT Service Provider or IT Vendor. This is because Computronix Technologies® will NEVER attempt the use of any substandard or fake IT products, equipment, accessories, and IT Service Specialists since we shall be liable to the burden, risk, danger, extra expenditures that will be involved by compromising set IT quality standards and specifications. IT Service Contracts keeps the mind of Clients, end-users and stakeholders at ease due the high security and protection of investment that are enshrined in such contractual terms and conditions in IT Service Contracts for IT Service Agreement, which protects our Clients from any future problems concerning IT products or IT services we offer. IT Service Contracts makes the repair and maintenance, development of IT systems and IT applications combined with the delivery of all IT projects to be executed in a very seamless manner without the technical glitches that are normally prevalent in circumstances where there are no IT Service Contracts in place. IT Service Contracts gives a clear definition of the planning, development, configuration, troubleshooting, repairing, and maintenance, scheduling, and scope of work (SoW) for any IT tasks; IT activities; IT work packages within the Work Breakdown Structure (WBS) of all IT projects contracted between us

Tel: +234-813-961-7210 WhatsApp: +234-813-961-7210

Email: post@computronixsupport.com Web: <https://computronixsupport.com>

and our Clients for efficient delivery without any hassles. What are you waiting for? We have your back covered! Hurry now in taking decision!! Our IT Service Contracts takes absolute care of any misfortune, and counteracts any possible upcoming problems that may arise from our Clients' IT systems, IT infrastructures, software applications, IT products, and much more. What else do we have to say here? IT Service Contracts for IT Support Services we offer to our Clients binds the Client, Computronix Technologies®, and its parent company named Systemtronix Solutions Limited® together in a mutually beneficial **Break and Fix contract, Time and Material Cost contract, and Fixed Priced contract** to all the parties involved in the deal depending on our clients' choice with very flexible terms and conditions that are garnished with a "Get-Away" clause.

•Making IT Systems Cheap, Efficient, Effective, Seamless, and Optimised.

It is good for our Clients, end-users and stakeholders to know that IT Support Services for many businesses have repetitive tasks, activities, work packages and projects that are recurring in nature due to IT requirements in daily running of business processes and operations for

increased profitability, productivity and performance. This implies that if a customer decides not to get involved in any IT service contract, it may certainly

"Accepting Our IT Service Contracts for IT Support Services will Reduce the Total Costs of IT Services We Provides to Individuals, Homes, Businesses, Companies, Organisations, and Governments on Long Term Basis to Increase their Profit Margins, Enhancing IT Security, Preventing IT Systems Breakdowns, Enhancing Data Protection, and Broadcasting their Products and Services Worldwide through the Internet with our Web Services".

derail work progress in business because recurring jobs will end up needing extra time and effort from both parties which are the "**Client**" and "**IT Services Provider**", in this case, Computronix Technologies® stands in as the IT Services Provider, Computronix Technologies® works in conjunction with Systemtronix Solutions Limited® in developing the project schedule, scope of work (SoW), and project budget for any IT project, IT task, IT activities and IT work packages that may be needed to keep IT systems and applications to be

©Copyright 2006-2030.Computronix Technologies® IT Services Provider. All Rights Reserved.

Email: post@computronixsupport.com Web: <https://computronixsupport.com>

running seamlessly in a well optimised manner. This sets up a seamless operation and projects for maintenance works that are regularly required for smooth functioning of IT systems, applications, networks, software and hardware without the need for wasteful time involved in negotiating price, purchasing and supply of IT accessories, conducting the logistics and transportation involved in the procurement of IT equipment and IT repair and maintenance service professionals combined with the elimination of the hassles involved in filling out information on any IT tasks, activities or work packages that may be involved in IT projects each time IT jobs are needed to be executed. The importance of IT Service Contracts cannot be over-emphasised, since IT Service Contracts guarantees that the planning, designing, development, configuring, programming, coding, troubleshooting, installing, repairing, and maintenance of IT systems, IT infrastructures, hardware and software system integration, designing and development of web and mobile applications, databases, repair and maintenance of IT hardware are adequately and regularly taken care of in order to prolong their lifespan. It is a very bad practice for those category of our Clients who try to avoid our IT Service Contracts just for mere fear of legal implications that may indict them which we commonly observed amongst our customers of Nigeria decent, the truth is that such cases of legal indictment NEVER occurs in

99.99 percent cases from our own experience-to-date in getting involved with our customers on IT Service Contracts. It is mostly intended for formality sake, and to have a common working document in paperwork serving as IT Service Agreement with our esteemed Clients. We normally recommend IT Service Contracts to our Clients because we are well experienced and have vast knowledge in project management through the core competence of our parent company in having adequate understanding of the immense importance of IT Service Contracts for smooth functioning of IT systems and IT infrastructures in a very cost-effective manner that gives ease of mind, reduces cost, guarantees delivery of quality IT products and IT services, and protects the IT systems, infrastructures, software, hardware, web and mobile applications against hazardous actions and activities emanating from daily business processes, operations and cyber threats. Once IT Service Contracts are in place, it becomes our statutory responsibility to ensure that our valued Clients on IT Service Contracts gets our IT Technical Support at appropriate time and date in well structured schedule that will not be too late or too soon for any planning, designing, development, updating, upgrading, troubleshooting, repair and maintenance, installation, configuration, IT consulting, procurement of IT products and IT services in well planned IT projects aimed to grow the business

profitability, productivity and performance for our Clients. Computronix IT Service Contracts, IT Support Services or Business IT Support will remain highly influential in preventing hardware and software problems, including all issues related to procurement and supply of IT products and IT services plus all other matters arising from IT advisory services in order to avoid the grounding of business functions through our capabilities and unique work culture in remaining **proactive** at all times instead of being **reactive**.

**•Alleviating Tax Burden,
Increasing Profit and
Competitive Advantage for
Start-Ups and Already Existing
Businesses.**

It has become increasingly important to reckon that any business which fails to have adequate IT systems and IT infrastructures in place with efficient IT Support Services, IT Service Contract or Business IT Support will certainly fall into the deep gully of risky business venture that could end up dwindling the capital investment, working capital, decreasing revenue, increasing operating expenses and capital expenditures, resulting in great waste of material and human resources, exposing the IT hardware and software systems, networks, databases, business emails, web and mobile applications, and much more to cyber threats from cyber criminals. The

avoidance of our IT Service Contracts for IT Support Services by enterprise business corporations will also be causing heavy tax burden to such businesses with consequential incidence of high decrement in profit margin. In today's competitive business world, there is no business, company, organisation, or government administration that will ever make substantial economic progress without putting in place adequate IT systems and IT infrastructures which must be followed up with adequate repair and maintenance culture interwoven into the fabrics of the corporate culture and organisational behaviour of any such business, company, organization or government. It is very important to have IT Service Contracts or Business IT Support implemented at the entry point of any business as part of IT strategy for Start-Up businesses in order to eradicate the ugly experience of losing new customers trust at the initial phase due to poor implementation of IT strategy, procurement and supply of IT products and IT services, inefficient IT advisory services to businesses, running of outdated IT technologies, and much more. Computronix Technologies® will continue taking businesses to enviable heights with fantastic IT Support Services under IT Service Contracts. All these will definitely grow the profit margin for businesses, companies or organisations by reducing cost of sales or operational expenses that will have the positive impact of simplifying and streamlining the tax burden to precipitate good tax returns that will be

made to any concerned tax authorities within any economy or geography. There are NO businesses, companies or organisations that will ever start any business enterprise without choosing Computronix Technologies® as their best IT Services Provider for Business IT Support Services under IT Service Contracts which will have long term effects on alleviating their business tax burden and commitment, and empowering their businesses to exceed and subdue the efforts of their competitors in any marketplace. **Computronix IT Service Contracts** will also help already established businesses, companies or organisations to create and consolidate their strategic position in any marketplace with our cost effective, secured, high quality, highly efficient and effective IT solutions that will continue giving our Clients with already existing in-house IT Support Team or IT Staff or the Clients with NO in-house IT professionals the very high cost advantages they need in order to maximise revenue and decrease tax burden. The Clients that are running their small and medium enterprises (SMEs) with their own IT Staff will certainly get to understand better the internal company knowledge and structure; which are being combined with greater technical know-how and expertise of Computronix Technologies®, as their IT Services Provider for Business IT Support Services under our IT Service Contracts. Computronix Technologies® will be maintaining a single point of dedicated contact for

any Client that may have chosen our IT Service Contracts for IT Support Services. Our Clients that have undertaken our IT Service Contracts also enjoys the advantage of having just a single billing **invoice** for numerous IT services we are offering to support the businesses of such Clients'. Computronix Technologies® will remain resolute in its commitment towards injecting more IT knowledge and unrivalled skill set which our IT professionals and IT Engineers are endowed with into the IT departments or IT Staff of any Start-up or already existing business, company or organization and government in order to make them more efficient and competitive enough in confronting the IT demands of their business challenges within any competitive business environment. Our abilities in getting all these objectives achieved are enshrined in our culture of continuous learning and development training through Systemtronix Learning Centre (SLC), which is the training service brand name that is managed, maintained, coordinated, monitored and owned by Systemtronix Solutions Limited® for training and producing high quality project and business resources that will be challenging and overcoming project and business failures in order to achieve project and business success for project owners, project leaders, IT leaders, thought leaders, business leaders, change leaders, end-users, and stakeholders. Apart from these development, the IT professionals and IT Engineers of Computronix Technologies® are
